easyEndo™ incorporates 8 patents of invention

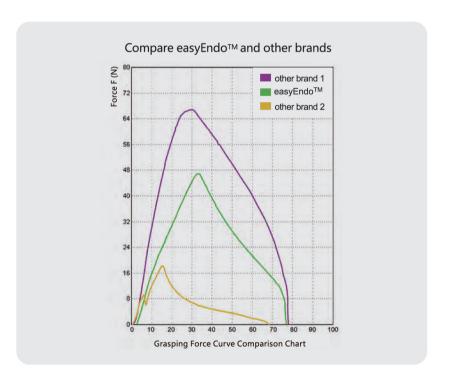

True one-handed grasping mechanism

Precise control and manipulation of tissue

Appropriate tissue compression and control to:

- Minimise the distal extrusion and displacement of tissue
- Optimal tissue compression

easyEndoTM Universal Linear Cutting Stapler

| Stapler Code | Shaft Length | Shaft OD | Package (BX) |
|--------------|--------------|----------|--------------|
| U12S | 70mm | 12mm | 1 pc |
| U12M | 160mm | 12mm | 1 pc |
| U12L | 250mm | 12mm | 1 pc |

easyEndoTM Loading Units

Linear Cartridge

| Cartridge Code | Color | Open Height | Closed Height | Shaft OD | Package (BX) |
|-------------------|-------|----------------|------------------|----------|-----------------|
| L30W | White | 2.5mm | 1.0mm | 12mm | 6 pcs |
| L30B | Blue | 3.5mm | 1.5mm | 12mm | 6 pcs |
| L45W | White | 2.5mm | 1.0mm | 12mm | 6 pcs |
| L45B | Blue | 3.5mm | 1.5mm | 12mm | 6 pcs |
| L45C | Gold | 3.8mm | 1.7mm | 12mm | 6 pcs |
| L45G | Green | 4.1mm | 2.0mm | 12mm | 6 pcs |
| L60W | White | 2.5mm | 1.0mm | 12mm | 6 pcs |
| L60B | Blue | 3.5mm | 1.5mm | 12mm | 6 pcs |
| L60C | Gold | 3.8mm | 1.7mm | 12mm | 6 pcs |
| L60G | Green | 4.1mm | 2.0mm | 12mm | 6 pcs |

Articulated Cartridge

| Cartridge Code | Color | Open Height | Closed Height | Shaft OD | Package (BX) |
|-------------------|-------|----------------|------------------|----------|-----------------|
| R30W | White | 2.5mm | 1.0mm | 12mm | 6 pcs |
| R30B | Blue | 3.5mm | 1.5mm | 12mm | 6 pcs |
| R45W | White | 2.5mm | 1.0mm | 12mm | 6 pcs |
| R45B | Blue | 3.5mm | 1.5mm | 12mm | 6 pcs |
| R45C | Gold | 3.8mm | 1.7mm | 12mm | 6 pcs |
| R45G | Green | 4.1mm | 2.0mm | 12mm | 6 pcs |

EZISURG MEDICAL

easyEndo™

Universal Linear Cutting Stapler and Loading Units for Single Use

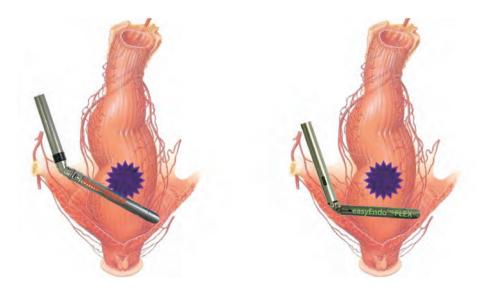

easyEndo™ Universal Linear Cutting Staplers and Loading Units for Single Use has registration with most governing bodies including U.S. FDA, CE and many other countries.

Launched as the world's first endoscopic Linear Cutting Stapler with full 60 degree of articulation, easyEndoTM FLEX will be able to provide an optimal solution for radical resection of rectal carcinoma.

Full 60 degree of Articulation:

- Best in class for challenging anatomical spaces
- Greater visualisation and control during tissue transection
- Reduced firing force and active tissue stapling feedback

Significant Advantages in Low Rectal Carcinoma:

- Precise control of resected tissue during surgery
- Deeper access to the line of resection
- Better surgical outcomes

easyEndo™ incorporates 8 patents of invention

Loading Indicating Arrow

Articulation

• Double belt design enables 60 degree articulation

Shaft

– Anvi

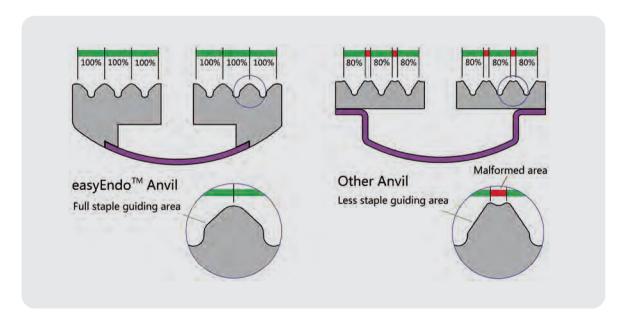

• Fixed design for easy access to the narrow space of tissues

Universal stapler

can be both used with PRO reloads and FLEX reloads adapted to variances in tissue thickness

Tissue contacting surface will completely guide staples

into the staple pockets for superior staple formation and haemostasis

Independent testing by SGS in October 2015 between easyEndo™ Universal Linear Cutting Stapler and Loading Units for Single Use, and two market leading competitors demonstrated the superiority of easyEndo™ Universal Linear Cutting Stapler and Loading Units for Single Use. Fewer malformed staples across a broader range of tissue thicknesses

Rotation Knob

 7 rotation angels to extend capability of access to the tissues

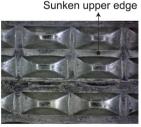

Rotation Collar

Precise staple pocket formation technology

delivers consistent formed staple performance

Wide proximal-to-distal jaw aperture

for easy positioning and manipulation of tissue
